KAVA INFUSION!

Kava is an herbal extract made from the ground roots of the plant in the pepper family. It's been used in the pacific for thousands of years for traditional purposes and special ceremonies. More recently it's used as a social drink to relax & de-stress after a hard day's work in the islands. The kava lactones (the good parts of the kava plant) we use at Nambawan Café are professionally extracted by the Kava Emporium and of export grade.
